

ZV ESD GROUNDING PLUG

APPLICATION

The grounding plug is designed for fast and easy connection of protective grounding elements to the grounding distribution system at assembly workplaces in dedicated ESD areas for processing of ESD sensitive components. It meets the EN 61 340-5-1 standard. It is particularly suitable for temporary and service workplaces.

ADVANTAGES

1. Easy connection to the grounding distribution system.
2. Possibility of connecting several leads.
3. Easily portable.

SPECIFICATIONS

| | |
|------------------------------|-----------------|
| Dimensions | 70 x 60 x 40 mm |
| Number of connecting sockets | 2 |

DESCRIPTION

The grounding plug is fitted with a single 4 mm banana socket for connection to the grounding distribution system, and a single instrument socket, which enables connection of both a banana socket, and cable tubes, plugs and bare conductors. Connectors are interconnected directly.
